

<b>Date:</b>	<b>24<sup>th</sup> June 2015</b>	
<b>Issue: AS</b>	<b>Stainless and Carbon Steel Tube Branding Changes</b>	

**Stainless and Carbon Steel tube branding changes.**

Effective from January 1<sup>st</sup> 2015 there has been a change to the brand name printed on Stainless Steel and Carbon Steel tube supplied by Pegler Yorkshire for installation on our XPress and Tectite systems.

The tube was previously marked with the brand name 'XPress', this has now changed to read 'SudoXPress'. All other markings, approvals and elements of the tube remain the same. The exceptions to this change in branding are our SS610 stainless steel tube and SC645 Carbon Steel tube for sprinkler applications.

Systems installed using XPress system tube will continue to benefit from a 25 year guarantee for Stainless Steel installations and a 10 year guarantee for Carbon Steel installations, regardless of if the tube is marked XPress or SudoXPress.

If you have any questions, or require any additional information, then please do not hesitate to contact Pegler Yorkshire directly.
