

POLICY STATEMENT

Aalberts IPS commitment to Safety, Health & the Environment

Aalberts IPS believes that good safety, health & environmental management is critical to the success of our business.

All employees of Aalberts IPS are responsible for the safety, health & environmental impact of themselves, their colleagues and third parties that may be affected by their actions.

We will as a business:

- Conform as a minimum, to the letter and spirit of UK Legislation concerning safety, health, environment and pollution prevention, in all our operations.
- Regularly measure our safety, health & environmental performance and openly report on it.
- Constantly monitor and review our safety, health & environmental performance, setting objectives and developing programs for continuous improvement.
- Ensure safety, health & the environment remain a top business priority and it is a prime consideration in all business decisions, therefore becoming an integral part of the way we work.
- Consult directly and openly with our employees to ensure effective communications, on all safety, health & environmental matters.
- Ensure sufficient financial and organisational resources are provided to meet the commitments set out in this policy statement.

Our goals are simple: we will strive to provide a “zero harm” workplace and eradicate workplace incidents and provide a safe and healthy environment in which to work, whilst reducing the impact of our operations on the environment.

Guy Robinson
Chief Executive Officer UK & Middle East
