

# ENERGY POLICY STATEMENT

## Aalberts IPS commitment to Efficient Energy Usage

Aalberts IPS will operate all its activities in an energy conscious manner in order to minimise energy usage, costs and CO<sub>2</sub> emissions and therefore reduce our impact on the environment.

We will as a business commit to:

- Approaching energy efficiency as a continuous improvement process;
- Consideration of costs, risk and energy security in the procurement and management of energy supplies and contracts;
- Ensuring energy efficiency is a major consideration in all aspects of management decision making and purchasing;
- Compliance with applicable legal and other requirements related to energy usage and management;
- Measuring and monitoring energy consumption and setting realistic objectives and targets for improvement; objectives and targets to be reviewed annually;
- Providing the availability of information and resources to meet objectives and targets;
- Promoting energy efficiency awareness to employees and providing appropriate training.

Where practicable, our energy management commitments will be aligned to wider Group objectives; helping to provide a safe and clean environment and supporting sustainable and profitable growth.

Guy Robinson  
Chief Executive Officer UK & Middle East
